| Travel | Electrical Hazards | Biological Hazards | Slips, Trips, and Falls |
| Thermal Stresses | Hazardous Materials | Insects | Fire/Explosions |
| Security Fatigue | Stress | Wild & Stray Animals | Structural Integrity |

Wound Care – Make sure that when you get a cut, scrape, and or puncture that you clean the area with antiseptic, apply some sort of topical antibiotic, and keep covered so that the wound area stays clean. Be sure to check wound daily to see that it is not getting infected. If the wound area becomes red and swollen, especially if red streaks extend from the wound, you should seek medical attention.

Where is the Hospital? Make sure to check the HASP and or Medical Plan (ICS Form 206) for the hospital closest to where you will be working and where you are staying. Remember if you call 911 from a cell phone you will need to provide the address of where you are located or at least an address generally in the area of where you are working before they can respond.

Early Morning Driving Safety – We **MUST** be very cautious while driving from our hotel to work. Be on the lookout for issues with street signage and lights! Take the time to make sure your windows and free of water or fog prior to driving.

Don't Forget To Drink Water! - Please bring plenty of water with you when you go out to the work-sites. Remember, if you don't drink, you'll drop like a rock! When the heat index is around 100 F drink 1 cup of water every 15-20 minutes. Generally, fluid intake should not exceed 6 cups per hour. During prolonged sweating lasting several hours, drink sports drinks containing balanced electrolytes.

Signs and symptoms of heat exhaustion – cool, moist skin; heavy sweating; headache; nausea or vomiting, dizziness; light-headedness; weakness, thirst; irritability; elevated body temperature; decreased urine output.

Signs and symptoms of heat Stroke – confusion, slurred speech; loss of consciousness; red hot, dry skin or profuse sweating, very high body temperature, seizures.

Staging Pad Sites – Ensure proper segregation of chemicals, utilize Cameo Chemical to determine compatibility. Refer to ICS Form 204 for additional safety instructions.

Who To Call! Address any Safety concerns to Reggie Book, 512-233-9330, David Eppler 214-733-4676 (214-665-3100) or Edward Primeau, 609-351-7148.

Present Moment Thinking – Think about what you are doing and not what you still have to do.

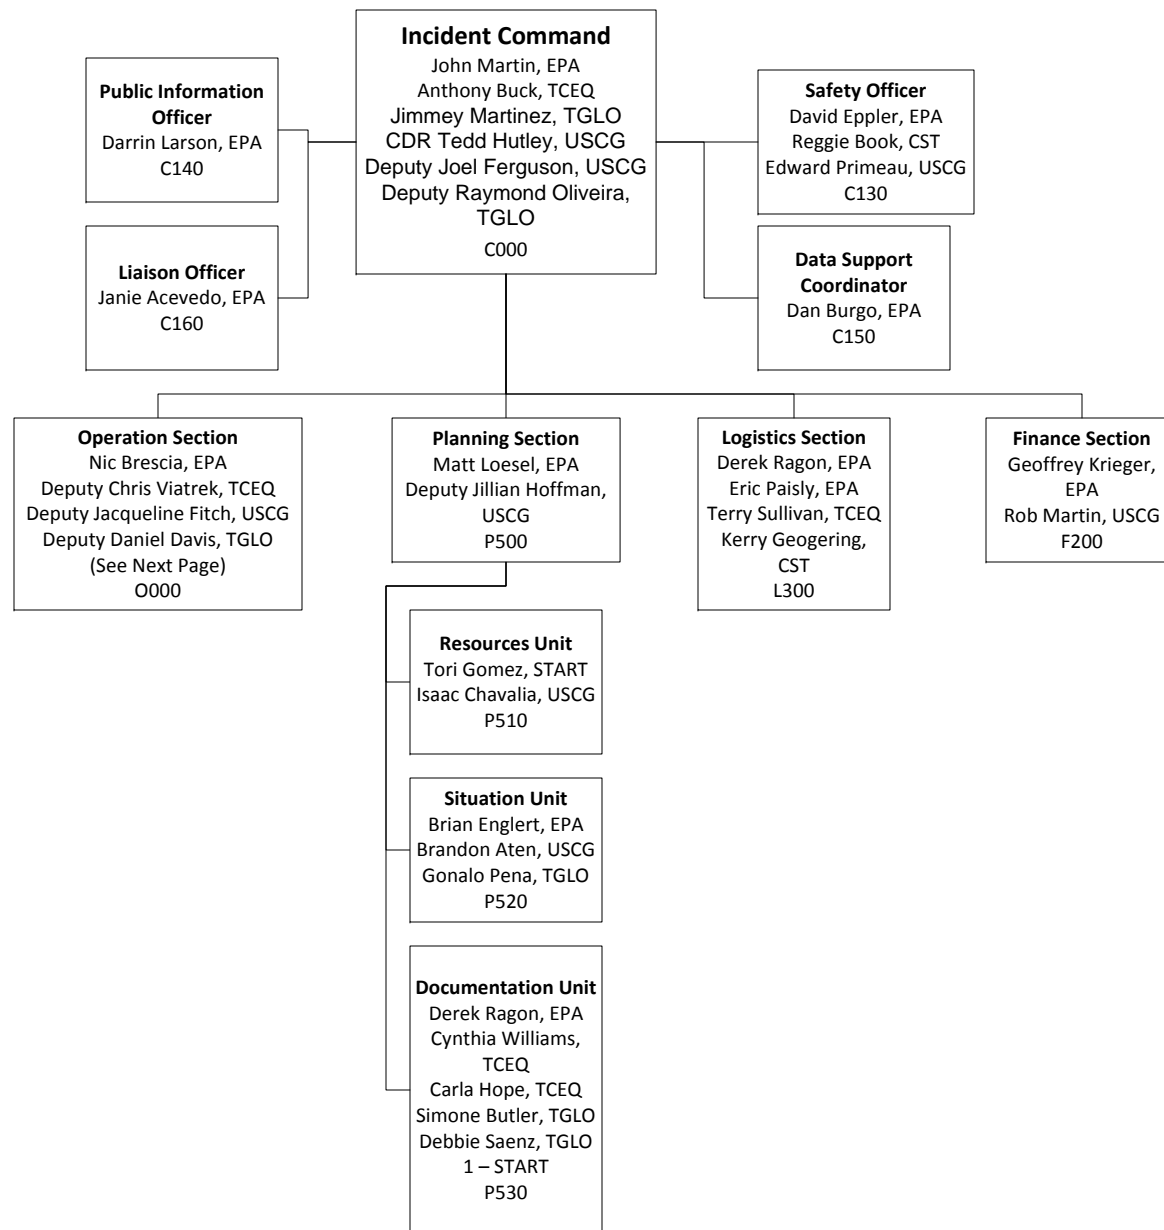

Careful when walking on wooden surfaces like stairs and docks, inspect for structural stability.

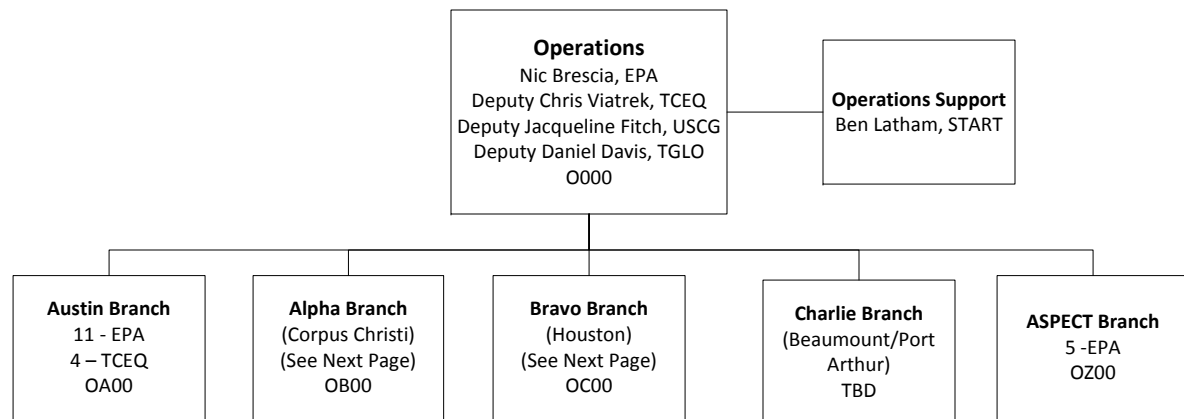

Recommend that all supervisors and team leaders conduct Operational Risk Management prior to the start of all operations. Provide rest in a cool shaded location.

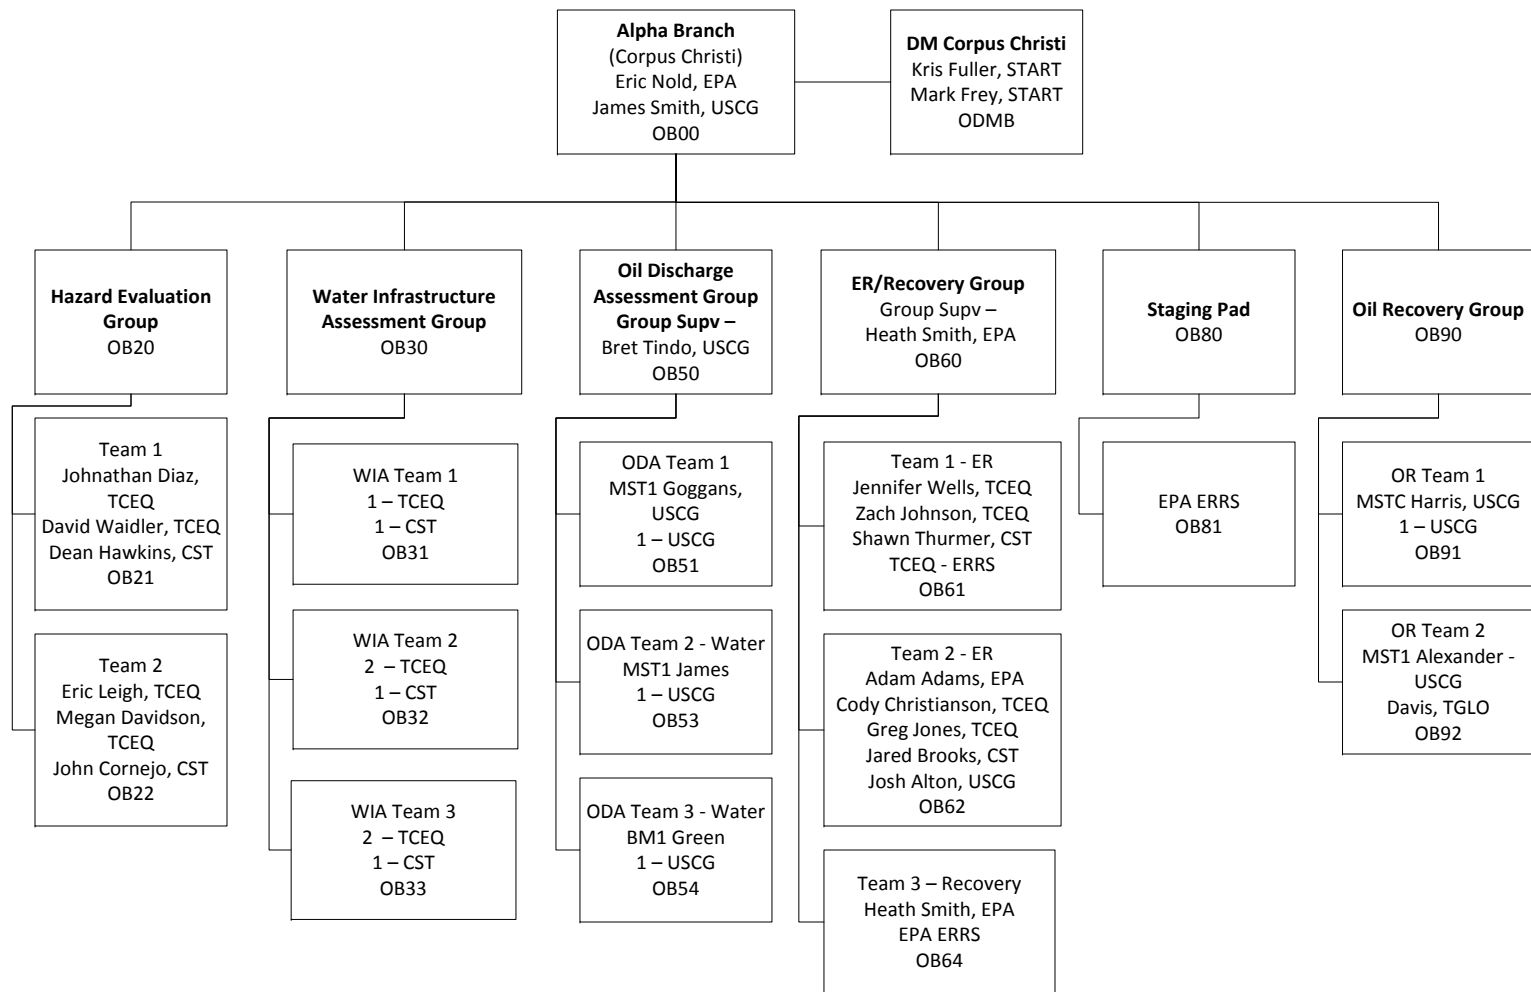

The mosquitos are increasing, ensure the use of insect repellant and reapply as directed by the manufacturer.
